

# Health & Justice Medicines Optimisation: 2023/25 strategic priorities

5 December 2023

The first stop for professional medicines advice

# Outline of today's event

## About the event

We will hear about national MO opportunities and a range of tools to support polypharmacy, dependence forming medicines prescribing and SMR delivery. We will consider the implications for using EPS in place of FP10s for urgent medicines and medicines supplied on release.

This is the main event for hearing about what's in the pipeline in terms of medicines optimisation and pharmacy services developments in Health & Justice practice.

## What will be covered:

1. An outline of the Health & Justice pharmacy and medicines optimisation programmes for 2023-2025
2. National medicines optimisation opportunities and resources available to support them
3. How EPS will be introduced in place of paper FP10s in Health & Justice practice
